

Spring Sports - SPECTATORS

Unlike winter sports that are inside the school and have adult supervision provided by BCMS, we do not provide students with spectator supervision for spring after school activities. Since the earliest time a game will start is forty-five minutes after school is dismissed, all students need to leave school following their usual dismissal routines. Students with adult supervision are encouraged and welcomed to come back to school to cheer our teams on at game time. Please do not send permission slips that your child can stay for a game as your child will be sent home under their normal routine.

Thank you for your understanding and support of our teams.
